

ABOVE AND BEYOND

A belated telling of a good story:
The life of a Rural Route mail carrier is not just delivering mail, as an incident which happened to Sis Graff proves.

Sis delivers mail along the Tarpley Route and several weeks ago she added to her tasks by helping save the life of a Houston hunter.

The man, whose name was McClain, hunts on the Rothe Martine ranch. One night about 12 midnight he was involved in a one-pickup accident when his pickup ran off the road into a ravine.

Sis came along about 9 a.m. the next morning and noticed items scattered around the area and decided to take a look. She found McClain pinned in his truck and called the ambulance. His injuries were not serious, but he was grateful, nevertheless, that Sis took time out from her mail delivery job to "investigate a few scattered items along the road."

GOOD BARGAIN TIME

Old man 1970 is out of sight down the lane of memories and the new babe 1971 is still sitting back gathering strength for the plunge into the fast-aging New Year.

But life goes on and Hondo merchants are this week offering outstanding buys in their clearance sales so that the New Year might be enjoyed with less wear and tear on the old pocketbook.

Why not begin a new practice right now in 1971? Shop the pages of the Anvil Herald and patronize your local merchants. Money spent with them is the only way to guarantee yourself that you will get a return on your investment, for they will pay a portion of your money back in taxes (school, city and county, as well as sales tax); they will give you back a portion of your money by supporting Boy Scouts, Campfire Girls, 4-H, FFA, Rodeo Association events, Museum Day, Red Cross, March of Dimes, Goodwill, church drives, the classes for exceptional children, and many others.

Do you realize that more than 50 percent of the barbecue, raffle, banquet, concert, and other tickets purchased in Hondo during a year are bought by business people?

They help you every time you turn around with your hand out -- so why not help them when they offer you good bargains at comparable prices -- SHOP AT HOME AS MUCH AS POSSIBLE, PLEASE. The merchants in San Antonio pay no taxes in Hondo, support no organizations in Hondo, don't give a hoot about Hondo except the money they can drain from its residents.

And aside to the merchants: Throughout the year, don't forget to let the local people know what your stores offer. Advertise your items -- your competitors in San Antonio certainly will. Give the people good buys -- good products at comparable prices -- your competitors in San Antonio certainly will.

LOOKING AHEAD

New Year resolutions seem to be a thing of the past, or at the most a new list of items that most people can hardly wait to break. So I hope that our intentions for the New Year can be carried through the entire 12 months and bear fruit.

The Anvil Herald plans to push Hondo and Medina County in 1971. Anything that is good for the area will be the goal of this newspaper. And to be specific these goals will be:

TO ATTRACT INDUSTRY: We believe Hondo and Medina County has something to offer small industry, and it will be our obligation to encourage efforts toward preparing our city for the effort needed to seek industry.

TO IMPROVE THE CITY: The Anvil

Construction booms in '70

If 1971 can come anywhere near 1970 in construction Hondo will enjoy its second record building year in history.

Permits issued at City Hall during 1970 totaled \$2,001,550, a record year for the City.

Leading the construction volume was March which included the junior high school. Permits totaled \$1,086,635.

Other construction included the Medina Savings Association and approximately 50 new homes throughout the city, as well as three buildings at the high school, and a new drive in grocery, the Dutchman.

New residences were constructed by Hondo Homes, Inc. in the southwest part of Hondo, Oakdell Inc. and its Colonies West subdivision and apartments west of the city and Kollman Oaks, north of the town.

Monthly totals during 1970 showed: January, \$90,802; February, \$61,155; March, \$1,086,635; April, \$71,239; May, \$61,040; June, \$222,012; July, \$74,375; August, \$121,950; September, \$41,375; October, \$92,705; November, \$21,250; December, \$57,012.

Comparable construction figures clearly reveal the dramatic jump. These show: 1969 total, \$633,443; 1968 total, \$585,355; 1967 total, \$556,542.

Court examines civil docket

District Judge Ross E. Doughty of Uvalde opened district court Tuesday at 10 a.m. to consider the civil docket.

A number of divorce cases and damage suits were scheduled for trial.

Judge Doughty had indicated he'll sit for criminal arraignments Friday.

All Region band try-outs set here

Students from 16 different schools will be competing for the Region XI All-Region Band in tryouts to be held here in Hondo this Saturday, January 9th. This is the second step towards the All-State Band which meets in Houston, February 11-13th.

The students will meet for tryouts Saturday morning. In the afternoon after students have been selected, there will be rehearsal of the All-Region Band. The band will be conducted by Dr. Bellamah of Texas A&I University. At 7:30 Saturday evening, there will be a concert in the Hondo High School Gym by the band. The public is invited to attend and admission is 50 cents for adults and 25 cents for students. Tickets for the concert can be bought from any Hondo Owl Band student, or can be purchased at the door.

This event is sponsored by the Texas Music Educators Association with the support of the Hondo Independent School District and Hondo Chamber of Commerce.

The Region XI All-Region Band is fortunate to have as its clinician-conductor, Dr. Joe Bellamah, director of

bands at Texas A&I University in Kingsville.

A native of Utica, New York, Joseph L. Bellamah began his early musical training in the public schools of Amsterdam, N.Y., as a trumpet player in the junior high school band. Coming to Texas in 1942, he played with the San Antonio Symphony Orchestra until he began his public school teaching career as band director at Westlaco High School in 1944.

He holds B.S. and M.A. degrees in music from Sul Ross College, Mus. D. degree from Southern College of Fine Arts and a Ph.D. in Near Eastern History from the International Free Protestant Episcopal University. His teaching experience includes head of the brass department of the Wurlitzer School of Music in New York City, Sul Ross University, Trinity University and presently as associate professor of music and band director at Texas A&I University. He is the author of several published brass and trumpet books. A former student of Max Schlossberg, he is currently listed in "Who's Who In The South and Southwest."

Cautious optimism expressed for '71

During the past year the nation has suffered what has been described in terms ranging from "a mild recession" in some quarters to "a depression" in other areas.

Hondo and Medina County did not face any such drastic affect, although in some instances belts were tightened and spending was watched closely. And they certainly felt the bite of inflationary trends.

The City of Hondo set a building record in money, thanks to the new junior high school, the Baptist Church, Medina Savings Association and the new housing project west of the city.

How about 1971? Will the city and county continue to resist the pinch? What is in store?

The Anvil Herald approached several persons and asked these questions. Answers could be termed "cautious optimism." Some of these include:

MAYOR GEORGE BRUCKS -- "As I look at 1971 I can visualize our community keeping pace with the ever-changing social and economic problems of today. To me, the success of every city is the ability to adjust to the every present problems.

"We have enjoyed progress and growth over the last several years, and I don't believe 1971 will be any differ-

ent. It is encouraging to me to see the young people come back home and go into professions and businesses. These young people have new ideas and knowledge to offer our community.

"In order to be able to entice more of these young people back to Hondo, we have to create jobs for them. We have probably the best facilities for industry of any town our size. We must use every effort to bring new industry to Hondo, because as jobs are created our whole economy grows. If we can gain an industry in 1971 the dividends

Medina Memorial Hospital will probably be re-certified for Medicare by the federal government.

That good news was given Hondo elected officials and hospital administrators Wednesday afternoon by US Rep. Abraham (Click) Kazen.

Kazen told a gathering in the office of County Judge Jerome Decker that the Texas delegation managed to pass a bill which will allow hospitals to be certified for Medicare without having registered nurses on duty 24 hours daily.

The representative said the bill will remove the major barrier to certification of the local hospital if the President signs it. "I don't think there's any question but what he will sign it," Kazen told the group.

Under provisions of the proposed law, rural hospitals may be exempted from the 24-ho-

'70 rainfall hits 30" but drouth covers area

Ironically as it might seem, Medina County received above its average rainfall for 1970, yet at year's end was caught in the grips of a tough dry spell.

This is the situation revealed in figures given the Anvil Herald by Adolph Hutzler, who lives on Highway 173 east of Biry.

Hutzler's figures, which he has provided the Anvil Herald each year for many years,

shows the county received a total of 30.15 inches. The average rainfall is around 29 inches.

The 1970 total came in the first ten months for November and December recorded no rainfall.

Hutzler's figures read: January, 1.25; February, 3.05; March, 2.75; April, 1.20; May, 7.20; June, .70; July, 2.95; August, 3.20; September, 7.25; October, .60.

359 livestock entries received

Three hundred fifty-nine animals have been entered in the Medina County Junior Livestock Show scheduled Feb. 1 and 2, 1971. This is the largest number of entries for the county show that have been entered for several years.

Medina County 4-H and FFA members are busy preparing their animals for the show with the help of their

respective agricultural teachers and the county agricultural agent.

Judges for the show will be **STEERS** -- Malcom Osburn, county agricultural agent, Live Oak County; **SWINE** -- C. E. Vickery, vocational agricultural teacher, John Marshall High School, San Antonio; **LAMBS** -- Darrel Smith, county agricultural agent, Uvalde County; **POULTRY** -- Gerald

Champayne, poultry specialist, Southwest Texas State College; **COMMERCIAL CALVES** -- Hank Elliott, manager L&M Packing Company, San Antonio.

Entries broken down into divisions are as follows:

Steers, 38; Lambs, 140; Market Hogs, 120; Pen of 5 Fryers, 31; Capons, 16; Commercial calves, 14.

Oath of office given county officials

County officials jumped the gun a little last week by taking the oath of office on December 31. County Attorney Frank Xavier Vance right, performed the swearing-in

duties. Taking the oath are left to right: County Treasurer Milton Mechler; JP Judge John Palma, LaCoste; JP Judge Harold Herring, Hondo; District Clerk Francis Bohl; County Judge Jerome Decker;

JP Judge O. K. Williams, Devine; Commissioner Ira Barron, Devine; County Surveyor Hilmar Koch, D'Hanis; Commissioner Hilmer Mangold, Castroville; JP Judge Dan Ruemple, Castroville.

will be felt for many years to come."

COUNTY JUDGE JEROME DECKER--"One of our most pressing problem is getting Medicare back at Medina Memorial Hospital. The loss of Medicare has placed the hospital in a precarious posi-

tion and its continued absence would result in losses which all taxpayers in Medina County and the City of Hondo would have to pay for."

"The County needs a uniform ordinance to control housing developments outside any incorporated city. This ordinance would include streets, drainage, sewage facilities and other health and sanitation conditions."

"Some of the communities in the county are experiencing problems with garbage disposal. Others will face the same problems in the near future. All must be solved."

"Of course money will be the big problem in everything we do, so we will have to move carefully and study the cost in everything."

ROBERT MCGARITY, PRESIDENT OF THE HONDO NATIONAL BANK--"Overall we expect 1971 to be enough better than 1970 to more than offset the effects of the national inflationary cycle."

"The economy of Medina County must of necessity generally follow the fluctuations of the national economy, but as to the beneficial and the detrimental trends. Often times it is possible through planning or because of our geographical location to lessen the impact of the detrimental aspects or intensify the beneficial trends, or in other cases to delay the effect of detrimental national trends and accelerate those of benefit to this area."

"During the past year, we have seen this work out during an extended period of credit freeze that bordered on panic in national business centers, but was never allowed to affect the businesses of the people in this area. Credit should continue to be readily available and rates easier than last year."

"Rainfall is of course the key to our economy and we must presume a nominal rainfall in 1971. At least two long range weather forecasting agencies are predicting great-

er than normal precipitation during January. We hope they are accurate."

"There appears little question that those prices most directly affecting the area income should remain steady to higher. Because of the great importance of the grain crop to this area, an inspection trip through the Midwestern states was made this fall. The "corn blight" affected grain sorghums as well as corn and may have greater impact next year in the Midwest than last. Unless it should invade this area, grain income should be up substantially. Cattle prices should remain strong in absence of herd liquidation in the Midwestern areas, but in this area grain prices may have more effect than a temporary market glut."

"We expect a prosperous year for the Hondo area."

ART FORMANN, MEDINA SAVINGS ASSOCIATION -- "1971 should be a better year. There were 34 houses built in 1970 through the help of Hondo Development Corporation, and this program will continue in 1971."

"Mortgage loans by Medina Savings Association stood at \$1,200,000 in 1970 and should increase to \$1,500,000 in 1971."

"A decrease in profits in most operations in our area will cause an even greater need for efficiency."

"There will be an increase in savings due to the knowledge gained during our tight money situation, where it was evident that all families and businesses should have a larger cash reserve."

The central theme running through most of the discussions is that the weatherman will be the most important person in this area during 1971. A lack of rainfall during the latter part of 1970 already has affected agriculture and weather conditions will continue to be the determining factor. But all in all the outlook is better for 1971 than in the year past.

several reasons stated for withdrawal, the major one which the hospital was unable to comply with was that requiring a registered nurse on duty 24 hours daily.

Melvin Finger, Medina Memorial Hospital administrator, told Kazen that the facility now has 24-hour nursing service except for days off.

A hearing before federal officials is scheduled on the local hospital's application for re-certification in the future. However, Kazen said he felt the new law will make the hearing unnecessary.

Hugh Meyer, attorney for the hospital, indicated an effort may be made through the hearing, however, to obtain Medicare funds retroactively. However, Kazen indicated there is probably little hope for such a move.

Indictments made

The Medina County grand jury concluded a one-day session Monday by issuing 11 indictments.

Chamber will host directors

Membership in the Hondo Chamber of Commerce have come in at a fair piece, but there is still a need for many more.

This was the consensus of the Board of Directors when they met Monday night.

Total pledges to date stand at \$6,218, Harry Filleman reported. "But many businesses and individuals and businessmen have not returned their cards," he reported. "We would urge them to do so."

The Chamber had a year-end bank balance of \$478.43 with 1971 paid memberships; the total now stands at \$2,543.43.

Herald will continue to encourage the City Council to initiate additional efforts to obtain housing for low income families. This is a dire need in Hondo and conditions will not improve unless more sincere effort is made to solve the problem.

TO IMPROVE THE SCHOOL: The Anvil Herald will continue to support all efforts of the school to provide additional vocational training for the hundreds of students who will never attend college, either because they cannot afford it, or just have no inclination to attend college. Vocational educational could also help to attract industry since it would provide fundamental skills that our young people could use right here at home.

TO CONTINUE SUPPORT OF GOOD LAW ENFORCEMENT: Our society has long leaned toward the permissive side when it comes to dealing with young and old in matters of law enforcement. We are solidly behind the trend to support better and stronger law enforcement. We do not say the law is always right, nor is it administered correctly at all times. But we do maintain that without laws and good enlightened, enforcement our world would be a chaos.

TO CONTINUE TO SUPPORT WELFARE: To us welfare is not a dirty word. It is a need of some people who have had the misfortune to be poor. If every one were poor this would not be so bad; but to be poor in this day of affluence is a tragedy. Ofcourse we want welfare for those who need it, and we want strong curbs to see the program is not abused, just like we want strong curbs to prevent the affluent from abusing the income tax program and hundreds of other loopholes in our laws which give one person an advantage over others.

TO SUPPORT THE CHAMBER OF COMMERCE: To us the Chamber of Commerce in any city is the one organization that deserves the full support of every businessman and individual. We will give that support to the Hondo Chamber of Commerce in its every effort--and will encourage its members and officers to do even more.

TO SUPPORT THE BUSINESSES OF OUR CITY: This goal can be termed a selfish one, for without the advertising of businesses the Anvil Herald would cease to exist. Advertising keeps us going. But at the same time it serves two other purposes--it sells goods for the merchant and it tells local residents where they can obtain what they need. In this connection the Anvil Herald will continue to give strong support to the Shop At Home theme. We are firmly convinced that if every person in Hondo would spend all they can in Hondo we would see the difference in better stores in a very short time.

TO PRESENT THE NEWS: The main function of the Anvil Herald will continue to be the presentation of the happenings of our city and county in as fair and impartial way as is humanly possible. This we pledge to continue to do. The pages of a hometown paper should be a record of that town; a record of its people from birth through the entire life a duly recording of their passing. We will do our level best to provide Hondo and Medina County with the best hometown newspaper possible.

Wheat yields must be set

The Medina County ASCS Office has been notified that provisions for using proven wheat yields as a starting point in establishing 1971 farm wheat program yields are included under the Agricultural Act of 1970.

Wheat producers may elect to establish a yield for their farms based on actual production rather than use the yield established by the county committee on judgment basis only. The base period for establishing 1971 yields is 1967, 1968 and 1969. The farm must have had a wheat allotment and harvested wheat acreage in all 3 years of the base period, and reliable proof of production on the harvested acreage must be submitted.

In order to assure consideration, a written request must be filed with the county ASCS committee within 15 days from date of notification.

Weather summary

The high temperature recorded at the Rio Grande Plains Research Station in December 1970 was 83 degrees on the 3rd. The low was 29 degrees recorded the 26th.

We recorded trace of rain on 10 separate days but recorded a total of only 0.12 inches. We showed no effective precipitation. At time of this report we have gone 102 days without rain. All of this area is extremely dry.

1970 METEOROLOGICAL SUMMARY

The year 1970 was a minus year most of the way. The high temperature for the year was 109 July 6th and 11th and on September 4th. The low recorded was 18 degrees January 7th. The average mean temperature was 61.4, some 10 degrees below the 40 year average.

Our last killing frost was February 3rd and our first in the fall, November 16th. There were 286 frost free

days. There were 18 days of 32 degrees or less; 93 clear days, 99 cloudy days and 173 partly cloudy days. Our sun shine index was 43%.

Our rainfall was 4.57 inches and we recorded no effective rainfall for the last 97 days of 1970.

1970 also saw hurricane force winds hit Southwest Texas. Hurricane Celia brought 85 miles an hour wind on the morning of August 4th. This is the first time in 40 years of records that hurricane force winds this high have been recorded this far inland.

May 1971 be better weatherwise.

Regional bands to be welcomed

The reputation Hondo has of being hospitable will be proved again Saturday, January 9, when the Region VII band director comes to town.

Chamber of Commerce directors Monday night reaffirmed a previous decision to host the approximately 25 directors at lunch. They will be treated at Herman Sons Steakhouse.

Publicity also came in for attention at the Monday night meeting. Directors authorized manager Harry Filleman to order 25,000 more Hondo postcards, the one item that places Hondo on the lips of people around the world.

Directors also authorized Filleman and director Burnis Lawrence to prepare a Hondo brochure to present to the Board for approval so that they can be printed.

Right side for hole

Pete Pedroza, manager of the Anvil Office Equipment, came up on this auto Monday on a South Texas road. Apparently the driver hit the heavy rubber marker used by highway maintenance personnel and it flipped into the air and through the windshield. As can be seen it was the right side for this kind of hole, or the driver might have received injuries.

Obituaries

Final rites said for N.C. Johnson

Funeral services were held Jan. 2 at Guinn-Horger Chapel for Nolan C. Johnson, who died Dec. 31, 1970 at Nix Hospital in San Antonio.

A retired oil distributor, Mr. Johnson had lived in Hondo since 1927. He was born April 1, 1896 in Shepherd, Texas. He was a World War I veteran, a member of Hondo Masonic Lodge and belonged to Hermann Sons Lodge.

Survivors include his wife Aline Johnson and a son, James Johnson, both of Hondo; brothers, H. L. Lilley of Walnut Springs and William Lilley of Shepherd; and a sister, Mrs. Lula Tuttle of Houston.

Pallbearers were Franklin Wiemers, Samuel Moss, Bill Young, Elmer J. Leinweber, Bill Jaegle and Frank Schweers. Interment was in Oakwood Cemetery with Guinn-Horger Funeral Home in charge of arrangements.

Pilar Sanchez

Funeral services were held Dec. 29, 1970 for Pilar Sanchez who died Dec. 27 in a

Kerrville hospital. Father Emmett Carolan recited the requiem mass at St. John's Catholic Church in Hondo.

Mr. Sanchez was born Feb. 16, 1890 at Conception, Texas. He had lived in Hondo most of his life and was a member of St. John's Catholic Church.

Survivors include his wife Sapapa Sanchez of Hondo; son, Domingo Sanchez, Lockney; daughters, Mrs. Juanita Hernandez, Mrs. Eva Cande, and Mrs. Elteria Tapia, all of Hondo, and Mrs. Luz Lane of San Antonio; brother, Dionisio Sanchez of Hondo; a sister, Mrs. Calletana DeLeon of Yancey; 18 grandchildren and 14 great-grandchildren.

Pallbearers were Pedro Moncada, Juan Sanchez, Roberto Delgado, Lupe Gatico, Jacinto Sanchez and Alberto Conde.

Interment was in Guadalupe Cemetery with Guinn-Horger Funeral Home in charge of arrangements.

Mrs. A. G. Langley

Mrs. A. G. (Mabel Fuller) Langley, 81, of Lytle passed away Dec. 26, 1970 in Castroville Hospital.

Born April 13, 1889 in Benton City, she was married to Mr. Langley in 1906. He preceded her in death in 1934 as did two sons, Terrell Langley in 1907 and Everett Langley in 1940. She was the daughter of the late Walter and Jennie Fuller.

She is survived by two daughters, Mrs. Ruth Newman and Mrs. Vesta Harvey, both of Natalia; a son, A. G. Langley, Jr., of Jourdan; two sisters, Mrs. Virgie Langley of Lytle and Mrs. Alice Dawson of Charlotte; four brothers, George Fuller, Oklahoma, Lee Fuller of San Saba, Guy Fuller of Somerset and Dan Fuller of Odessa; six grandchildren and 10 great-grandchildren.

Mrs. Langley had spent her entire life at Benton City and Lytle. She graduated from the Benton City School, was a Baptist and served as a Sunday school teacher in the Benton City Baptist Church in her younger days.

Funeral services were held Dec. 27 in Hurley Funeral Chapel with Rev. E. C. Brunson, pastor of Calvary Baptist Church in Devine, officiating.

Burial was in Benton City Cemetery. Pallbearers were Stel Forth, Tommy Newman, Clyde Richardson, Homer Love, Gary Sloan and Aldridge Crawford.

Conservation

Parallel terrace systems are recommended for conservation

With the land almost too dry to plow, many farmers are wishing for a good terrace system without the bother of crooked rows and short point rows. This wish can now be a reality, according to Claude Thompson, agricultural engineer for the Soil Conservation Service.

Parallel terrace systems used in combination with good conservation cropping systems will give the maximum conservation and use of moisture. These precision built terraces are designed to accommodate modern, high-speed, mechanical farming equipment.

Soil Conservation Service and technicians are finding they can work out parallel terrace systems for almost any field. Usually a topographic or contour map of the field is made. This map enables the farmer and the SCS technician assisting him to plan the best row pattern for the field before construction starts. They can try many different ideas on the map and quickly make adjustments that will improve the system.

Often some leveling or filling is needed to help spread water and keep it out of low places. Waterways, outlets,

turn rows and roads must all be considered in planning the complete system. Everything possible is considered that will permit making more of the system parallel.

Each terrace in a system may require some different procedure in construction. Improved methods brought about by the need for leveling and filling have resulted in a more desirable terrace for farming, said Thompson.

Farmers considering parallel terrace construction should begin early on the planning phase. More time and work is needed than for building standard terraces.

When a system is properly designed and completely planned out before construction is started, nearly all of the objections to farming terraced land will be overcome. The wish of the dryland farmer will become a reality through parallel terraces.

Methodists to honor members

This Sunday, Jan. 10, at 8:30 p.m., 42 new members

Program on fabrics slated

A program on new fabrics will be presented by Home Demonstration Agent Barbara Fowler at the Jan. 12 meeting of Hondo Home Demonstration Club.

The meeting will be held in the home of Mrs. Albert Saathoff, Jr. with Mrs. George Alexander as co-hostess. Guests are welcome.

received into the membership of United Methodist Church in Hondo will be honor guests at a covered dish supper which the church family will provide.

Mrs. Marcellus Garrison is in charge of arrangements for the supper. A committee is working on entertainment.

An old time song service with singing of some of the older songs of the church will be led by Bob Peden.

Following the supper and entertainment a session of the Charge Conference will be called by District Superintendent Rev. C. Jordan Mann.

Weiblen-Tondre vows recited

Miss Judith Ann Tondre became the bride of Michael Don Weiblen in double ring ceremonies performed Dec. 26 at St. Louis Catholic Church in Castroville. Father Larry Steubben recited the nuptial mass.

Parents of the couple are Mr. and Mrs. Victor Tondre and Mr. and Mrs. Arthur Weiblen, all of Castroville.

The newlyweds are students at Texas A&I University, Kingsville, where she is majoring in home economics and he in electrical engineering. Both graduated from St. Louis High School.

Given in marriage by her

father, the bride wore a self designed long white gown with a shoulder length veil and detachable train.

Miss Barbara Tondre of Garland attended her sister as maid of honor. Bridesmaids were Misses Phyllis and Elaine Santleben of LaCoste, cousins of the bride, and Sylvia Cantu of McAllen.

Attendants were attired in floor length green couturer gowns; they carried green velvet holly with gold Christmas balls and streamers.

Michael DeCock of Castroville was best man. Ushers were Bob Mechler and Fred Weiblen. Groomsmen were Pat Zinsmeyer, Joey Tondre, and Glen Weiblen.

Parents of the couple honored them with a reception at Koenig Park, Castroville, immediately following the ceremony.

Following a wedding trip to New Mexico and Colorado, the couple will be at home at Kingsville.

Social Security vital to young persons

Young people often overlook the protection social security gives them when they start to work, Roy L. Swift, social security district manager in San Antonio, pointed out today. If you are a young worker, you probably consider social security as something for older folks. You are not alone, as this is a common fallacy.

Swift asked, "If you are a young wage earner with family responsibilities, stop and reflect on this for a minute. What would you and your family do if your career were suddenly cut short by disability? Disability benefits under social security can provide the answer."

Two requirements must be met for you to qualify for this benefit. You must be severely disabled and you must have a certain amount of work under social security.

The first requirement is the same for all workers regardless of age. However, the amount of work needed depends on your age when you become disabled.

If you are under 24 or younger, you need have worked only 1-1/2 years in the three years just before your disability began. The worker between 24 and 30 needs work credit for half the time between age 21 and the time of his disability. A person 31 or older, needs credit for five years of work out of the ten years just before he became disabled.

The younger worker needs less coverage because he has not had an opportunity to work as long under social security as some of his senior co-workers.

Everyone hopes such a tragedy will not happen to him, but as a mature young worker you cannot ignore the uncertainties of life. If you would like to find out exactly what social security will do for you in the need arises, see your social security representative. Your representative, Mrs. Fry, will be in Hondo at the District Courtroom in the Courthouse on Monday, Jan. 11, at 8:45 a.m.

This Week

That's all she wrote

By Edna McDade

This is probably the last of my "foreign" dispatches. By the next dateline, I should be out of snow and back to the grassburrs.

What the pussy willows are doing in many of Hondo's back yards this week, I don't know. But I know that Lancaster County residents are rejoicing over bushes covered with the soft, fuzzy buds now out in full splendor, with the snow adding an extra furry look. Pictures have been in the news.

Since Hondo's patrol cars are adding new radio and radar equipment, this reminder (Chicago Tribune) might serve as a warning to heavy footed motorists in our community: "Radar spelled backwards is Radar. It gets you coming and going." Watch a little out!

If the London and Paris-touring O. A. FLYS don't run out of voice before I get home, I shall expect to hear all the details of their trip. A note from Millie enclosed the names of seven McDades she had found listed in the London telephone directory, including one J. W., two J's and a W. J. but I do not know of any kitch and kin that far from home.

Our paternal grandfather, Edward Nixon Gray, whose parents came from England, said he had the good judgement to wait until the family reached New York before he discovered America. I wish I might have known him. I was born in his 26-room home on a big Texas ranch but he died when I was less than a year old -- a very long time ago.

Following Millie's example, I checked a few of the names in the Lancaster directory for "spell alikes", to compare with Medina County.

GROFFs predominated with more than 250 listed. I found six SCHWEERSes and only a handful (5) of FINGERS.

Maybe, by way of a New Year resolution, the P.O. Dept. is trying to improve its Hondo-Lancaster delivery service. I received the Dec. 17 issue of the HERALD on Dec. 22 and I think I read almost every word in it, remembering to say a kind one for the mail!!

The projected ag money figure impressed me -- even if the over-\$21-1/2 million potential still has five years to go for realization.

Now, if the weather will cooperate and if we can find the proper appetite depressants for blights and bugs, our dedicated farmers might help exceed even the anticipated goal, in 1976.

Cheers and congratulations to the hard-working Friends-of-the-Library foursome who "managed" the first fund-raising project in such short order.

Looking pleased and plum-pretty in their picture were SNOOKIE BADER, LIL PORTER, LILLIAN SCHWEERS and Chief Engineer MARY MEYER. They are to consider this a "firm order" from me for two of those Hondo Holiday Cookbooks. Save them for me and, maybe by NEXT year, I can learn how to holiday-cook.

Because the memory of Nov. 11, 1918 is still so vivid, it took me a long time to accept the change from Armistice Day to Veterans.

Now Uncle Sam throws another curve by changing the date to Oct. 25 to accommodate another Monday. And, poor George Washington must really be confused, after all the pro-and-con arguments about the exact date of his birth, to have to settle for Feb. 15!

But, just as you can't fool all of the people all of the time, you can't please 'em either! Here, Lancaster County Commissioners adopted a 1971 holiday schedule for employees to include six Monday holidays and allow for long weekends; two Fridays, Jan. 1 and April 9, Good Friday; plus the traditional T'day and Christmas.

So much for tradition. What's that?

From my treasured friend, JOSIE (Mrs. Amos) FINGER, of D'HANIS. I received a delightful little book of quotations titled "The Blue of Heaven". (This is a quickie way of acknowledging it until I get around to my proper manners.)

New to me, but one which I specially like is from Bevins Jay and the name is not even familiar: "The secret of contentment is to settle for half a measure before the cup runs over and makes a mess".

Communicable diseases reported by doctors: Measles - Rubella, 91; Strep. Sore throat incl. Scarlet Fever, 12; Chickenpox, 1.

Register

Nineteen seventy-one may be a slow year at the polls with no federal elections. But residents must register each year to be eligible to participate in any decisions which might arise.

Special elections, a possible constitutional amendment question, local city councils, school boards or possible bond issues make it vital that concerned citizens register by January 31.

Auto registration renewals due soon

If you own one or more of the more than seven million motor vehicles in Texas, there is some important mail coming your way early in January. It is your registration renewal application.

This is the second year of operation for the new, easy computerized registration procedure devised by the Texas Highway Department.

Last year, the system greatly reduced bothersome waits and long lines which plagued vehicle owners at county tax offices and substations in years past.

Prospects are that the system will work even better this year.

Also, it is not necessary to present last year's registration receipt of the certificate of title. The renewal application you will receive in the mail is all you will need.

Registration begins February 1 and continues through April 1.

The renewal application will arrive in the mail in a slender envelope marked, "Important -- This is Your License Plate Renewal Application."

The application is a three-part form with instructions printed on it. One important thing to remember is THE CARD SHOULD NOT BE TORN APART.

After the registration period begins February 1, each vehicle owner can take the renewal application and the fee to his county tax office, or he can order his plates by mail.

If the owner wishes to register his vehicle by mail, he should send the entire three-part renewal application, the fee and an additional \$1 to the local county tax office as early as January with the understanding that his license plates may not be mailed until February 1.

The additional \$1 charge covers cost of handling and postage.

If owners are to receive their plates by mail before the April 1 deadline, then they must send the renewal form, fee and \$1 for each vehicle to be registered to the local county tax office by March 1. This allows 30 days for delivery of the plates before the April 1 registration deadline.

If the owner decides to go

to the county tax office or substation, he will find shorter waiting lines.

All he needs to take with him is the renewal application and the fee. He will then receive his new plates and part of the form as his receipt.

Another part of the form is retained by the county and the third is sent to the Motor Vehicle Division of the Texas Highway Department in Austin.

However the owner may decide to register his vehicle, by mail or in person, use of the renewal form will be more convenient and timesaving.

The current registration system is the product of much work and planning. The system began to take shape in 1967 with the installation of the first computer equipment by the Motor Vehicle Division of the Highway Department.

Bippert due home this week

Nelson Bippert, Hondo High School head football coach, is expected to return home this week to continue recuperation from brain surgery.

Bippert is reported to be recovering nicely following the surgery which was done in a San Antonio hospital.

The Owl grid coach had a tumor removed during brain surgery in November 1969 at the end of the regular football season.

Medina Electric sets change

Medina Electric Cooperative began its new district organizational procedure January 1 with its area divided into four districts.

George Schmidt of Hondo heads the Hondo Office as district manager. Schmidt's District No. 1 includes: Castroville, Devine, Quilley, Moore, D'Hanis, Yancey, Natalia, Lytle, Dunlay, Rio Medina, Big Foot and Kyote.

Another district which affects the western area of Medina County is District 4 headed by David Low as manager. This area includes: Campwood, Batesville, Knippa, LaPryor, Montell, Reagan Wells, Sabinal, Uvalde and south and west D'Hanis.

KEBO LIGON (13) STRETCHES FOR DEVINE REBOUND . . . Gary Smith (44) gets gentle shove from James Batteau (15)

Big Warhorse fourth quarter effort sinks Owls 63-57

Devine used a 25-point fourth quarter Tuesday night to defeat Hondo 63-57. The win left the Warhorses undefeated in two district games, while the Owls have a win and a loss.

All-District center Gary Smith paced the Warhorse attack with 20 points. Chris Wiemers had 16 points and Ely Hernandez 14 for the winners.

The Owls managed to get three players in double figures. Keith (Kebo) Ligon, who shares high post duties with Lee Green, led the Owls with 16 points, and Eric Grant and Ricky Powell each contributed 10.

Hondo was behind 10-8 at the quarter, and 26-21 at the half. However, the Owls pulled even at 38-38 by the end of the third period.

Powell exploded for 8 of his 10 points in the final period, and Ligon had 7 as the Owls put 19 points on the

board. But Devine got 25 points in the period.

Hondo had 8 field goals and the Warhorses had 9 in

the fourth quarter. However, Devine hit on 7 of 8 free throws, while the Owls went to the line only 4 times, hitting 3 charity tosses.

Farmers tax guides are available now

Farmers tax guides are now available in the Medina County extension office.

The 1970 farmers tax guide has been designed to make it easier to use and more helpful to farmers in preparing and filing 1970 Federal income tax returns.

This edition reflects many of the latest changes in Federal tax laws resulting from

the Tax Reform Act of 1969. The tax rights and obligations of farmers are explained in detail.

Producers are reminded that an estimated income tax return form for 1970 must be filed and estimated tax paid by Jan. 15, 1971, if you want to wait until April 15, 1971, to file your tax return. Otherwise, March 1, 1971 is the deadline for filing and paying 1970 taxes.

The farmers tax guide can be picked up at the county extension office or a guide will be mailed to you upon request.

3 get degrees

SAN MARCOS -- More than 500 Southwest Texas State University students were expected to complete requirements for bachelors of masters degrees by the end of the fall semester, Dec. 19.

Since SWT has no mid-year commencement ceremony, the degrees will be awarded in May.

Christina Criselda Sepulveda of Box 72, Natalia, was among the students to complete degrees in the school of business. She is to receive a B.S. in business administration.

Mrs. Frances Fay Linnartz of Yancey was among students scheduled to complete degrees in the school of applied arts. Mrs. Linnartz, daughter of Mr. and Mrs. Howard Wiemers of Star Route Yancey, is meeting requirements for a bachelor of science in home economics degree. Mrs. Linnartz is married to Roy Linnartz of Devine.

Robert Daniel Pavlica of 2106 Ave. T, Hondo, was among students scheduled to complete degrees in the school of business. He was meeting requirements for a B.B.A. in business administration.

Estimated tax deadline near

Farmers, ranchers and fishermen were reminded today that Friday, January 15, is the last day for filing their estimated Federal income tax returns for 1970, unless they plan filing their final return and paying the entire tax due on or before Monday, March 1, 1971.

Chester F. Lorillard, administrative officer of Internal Revenue Service in San Antonio, explained that those farmers, ranchers and fishermen who file an estimated return on January 15 and pay the tax due thereon have until April 15 to file their final return and pay any balance of tax due. Otherwise, the law requires that they file their final return and pay the full amount of the tax due by March 1.

1971. You've changed. We've changed.

Change. That's what it's all about this year. And that's what we mean by putting you first.

These are uneasy times. There are major concerns. About pollution. About safety. About the economy. About your hard-earned dollar. We know.

For the past 10 years Chevrolet research people have questioned thousands of people on every subject from rising taxes to the size of the glovebox in their cars.

We've found that price and maintenance costs, trade-in value and quality have become tremendously important.

Your car has to work. It has to last. And each new model must have more built-in value.

At Chevrolet, we understand. You want meaningful change. And our aim is to give that to you, as you'll see in the 1971 Chevrolets.

Caprice. The biggest, most luxurious Chevrolet ever. A complete change.

Bigness in itself is nothing. But if it allows you to lengthen the distance between the front and rear wheels (which we did), then you've got something.

You've got a smoother ride. The idea in the 1971 Caprice was to give you the looks and comfort of a six- or seven-thousand-dollar car, without asking you to pay anywhere near that much for it. And above all, to build in as much dependability and security as possible.

So we changed the body structure for 1971, too. We made it stronger. And we made it quieter by putting a double layer of steel in the roof.

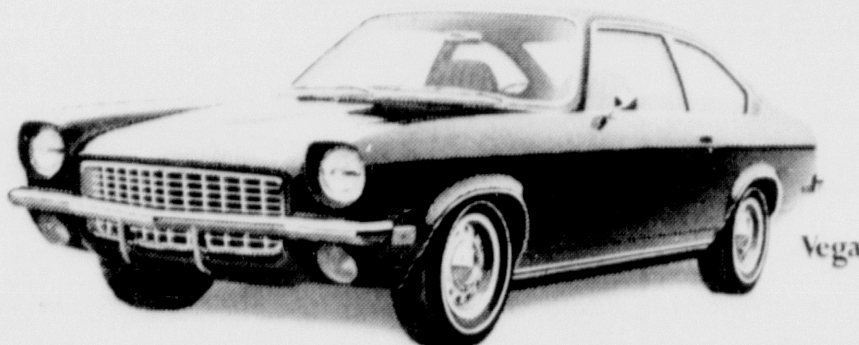

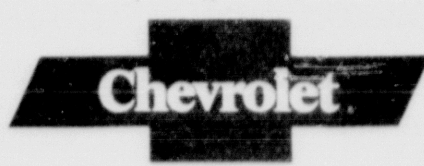

Caprice, as you can see below, is a lot of luxury at a Chevrolet price.

Vega. The littlest Chevy ever. It wasn't changed from anything.

Before building Vega, we read everything we could get our hands on about little cars. We talked to owners. We studied little cars up one side and down the other and, literally, tore them apart. We found out what made them tick, or why they didn't tick.

What ticked were gas economy and dependability. What didn't were underpowered engines, cramped quarters and getting blown around in the wind.

In our little Vega, everything ticks. It's not just another little car. You didn't want that. It's one little car that does everything well.

Looking back over the past 12 months it would seem that 1970 has been an uneventful year for Hondo and Medina County.

Yet, a close inspection reveals many items which affected the residents or the area. The breakdown by month of highlighting events shows:

January
Construction began on the \$1,015,785 junior high school and other buildings. Rep. John Poerner announced for reelection. O. L. Fly sold Fly's Drug to Dan Conolly of Beeville, Jack Gruber named manager.

February
Sales totals at Medina County's 20th Annual Junior Livestock Show reached \$34,613, highest ever. Announcement was made that Radio Station KRME would go on the air in Hondo. County Commissioners voted to join Alamo Area Council of Governments. City announced plan to study all ordinances. Construction began on Medina Savings Association new building running total permits over \$1,500,000 mark. Karen Mann crowned 1970 Queen of SA area. CYO Hondo Owls drop Devine Warhorses for district basketball title—then lose in bi-district to Hays Consolidated.

March
D'Hanis pecans win four first place ribbons and a Grand Champion plaque from the International Pecan Show held in Las Cruces, New Mexico. Catfish farming starts in

county. Six vie for three City Council seats. Three Owls make All-District cage squad. Seco watershed plan hits snag. Broomecorn acreage reduced 40 percent.

April
Some 5,000 attend KRME open house. Hope runs high for expanded population as census starts. Kenneth Flory, a 1942 Hondo High

graduate, hired as assistant superintendent to J. B. Barry who announced retirement for 1971. County audit showed \$292,363 balance at end of 1969. Burnis Lawrence named managing editor of Anvil Herald-John Seater named KRME manager. D'Hanis voters approve \$225,000 bond election. Hail hits county, damage light.

May
Jerome Decker, George Clark win runoff spots in County Judge race. Jimmy Palacios and Harold Herring vie in JP runoff. City Council announces tax rate to remain same. Storm batters county crops, damage estimated at \$250,000 on 3,000 acres.

June
First rodeo sponsored by Medina County Rodeo Association is howling success. Hondo National Bank announces trust department. Medina County records state's first and second screwworm case. Medina County Museum formed -- goal to move SP depot. Jerome Decker wins County Judge race, resigns as Mayor of Hondo. Herring wins JP spot. Special election set to select Mayor, George Brucks, Albert Rowlett, and Will J. Ney, Jr. throw hats in mayoral race. Museum drive launched, \$5000 sought. Grain harvest hits over \$1 million. Young Farmers host area field day. Annual Crops Tour held. County Agent Glenn Bragg terms it successful.

Hinson receives award

Carl Hinson (l), Morton Foods distributor in Hondo, has been named the outstanding company salesman in his area for the year 1970. The award was personally presented to Hinson by James W. Campbell, president of Morton Foods. Hinson and his family live at 2501 Avenue E in Hondo.

August
Tailend of Hurricane Cecilia does some damage in Medina County. George Brucks elected Hondo mayor. Transisto Cortez killed in D'Hanis train-car accident. Weather radar site plans revealed for Hondo. Museum Day whopping success, grosses over \$4000. Joe Pire fired from police department. School bells ring early on August 31.

September
Initial school enrollment falls 14 under 1969. Owls open 1970 season against Del Rio with big win. County residents get upset over loss of Medicare at Medina Memorial Hospital. The Texas Star

Plans announced for new Texas statewide magazine

AUSTIN -- Publisher Gordon Fulcher announced Saturday the appointments of two key executives for The Texas Star, a new Sunday magazine to be distributed with more than 20 leading Texas newspapers having a combined circulation in excess of 1,300,000.

Fulcher said publication is scheduled to begin next spring News and feature content of the magazine will be devoted entirely to Texas and Texans, he said, covering such varied subjects as travel, food, sports, history, education, humor, religion, the arts, personalities, government, business and industry.

Jimmy Banks of Austin, veteran Texas newspaperman

and magazine writer, was named as editor and James W. Shriver of San Antonio, now national advertising manager for the San Antonio Light, as advertising manager.

Organizers of the Star include former Gov. John B. Connally, chairman of the Board of Directors; William E. Berger of Hondo and Austin, president of a firm which publishes several weekly newspapers, vice-president; and Fulcher, now publisher of the Atlanta (Texas) Citizens Journal and former Austin American-Statesman editor, president. Fulcher, who spent several years in the contracting business, is also chairman of the Texas Water Quality Board.

Fulcher said the role Connally will play in the firm is uncertain at the present time due to his appointment as Secretary of the Treasury.

"He may have to divest himself of his ownership in order to avoid any possible conflict of interests," said Fulcher. "We certainly hope that he will be able to continue his participation but if he cannot, this will not change our plans to carry out our publication schedule."

Fulcher and Connally, close personal friends for many years, have worked together for nearly two years planning publication of the all-Texas Sunday magazine.

"Governor Connally's great abilities and his devotion to excellence are and have been of inestimable value to us in our initial planning," said Fulcher. "I think the talent we have lined up assures us of maintaining his goal of true excellence in this publication."

Banks and Berger have been working for months on the launching of the Star, said

Fulcher, and Shriver will join the staff on Jan. 11.

Banks, a former sports editor of the Austin American-Statesman, spent a total of 18 years with the Dallas Morning News as a sportswriter and capitol correspondent before resigning last July. He served as public relations director in U. S. Senator-elect Lloyd Bentsen's general election campaign and formerly served on the staffs of Governors Allen Shivers and Price Daniel. He has had more than 100 magazine articles published and recently completed a book on Texas politics, "Money, Marbles and Chalk," which is scheduled for publication next year. He is a correspondent for Sports Illustrated and has edited magazines for the Texas Association and the Texas Society of Architects.

Shriver, a University of Kansas journalism graduate, has been in newspaper advertising since 1950. He joined the San Antonio Light staff in March, 1968, after two years with the Texas Daily Press League in Dallas and one year with the Wichita Falls Times and Record-News. Prior to that, he spent nine years with the Harte-Hanks Newspapers, working his way up from salesman on the Corpus Christi Caller-Times to vice-president in charge of general advertising for the chain of newspapers. He had previously worked in circulation and advertising on the Chanute (Kan.) Tribune, Morristown (Tenn.) Sun and Miami County (Paola, Kan.) Republican.

Berger is a past president of the Texas Press Association and is president of Associated Texas Newspapers, Inc., which publishes six weekly newspapers in South Texas. He also is owner of a radio station in Hondo. He was appointed to the Texas Water Rights Commission by Gov. Connally in 1965 and served until 1969.
